

BEFORE
THE PUBLIC SERVICE COMMISSION OF
SOUTH CAROLINA
DOCKET NO. 2000-0173-C - ORDER NO. 2000-0546
JUNE 30, 2000

IN RE: Application of 2 nd Century Communications,)	
Inc. for a Certificate of Public Convenience)	
and Necessity to Provide Resold and)	ORDER
Facilities-Based Local Exchange)	GRANTING
Telecommunications Services and Resold)	CERTIFICATE
Interexchange Telecommunications Services)	
in the State of South Carolina.)	

This matter comes before the Public Service Commission of South Carolina (the "Commission") by way of the Application of 2nd Century Communications, Incorporated ("2nd Century" or the "Company") requesting a Certificate of Public Convenience and Necessity authorizing it to provide resold and facilities-based local exchange and intrastate interexchange telecommunications services within the State of South Carolina. The Company's application was filed pursuant to S.C. Code Ann. §58-9-280 (Supp. 1999) and the Regulations of the Public Service Commission of South Carolina.

By letter, the Commission's Executive Director instructed 2nd Century to publish, one time, a prepared Notice of Filing in newspapers of general circulation in the areas affected by the Application. The proposed Notice of Filing was to inform interested parties of the manner and time in which to file the appropriate pleadings for participation in the proceedings. 2nd Century complied with this instruction and provided the Commission with proof of publication of the Notice of Filing.

A Petition to Intervene was received from the South Carolina Telephone Coalition (“SCTC”) on May 8, 2000. Thereafter, Counsel for SCTC filed with the Commission a Stipulation in which 2nd Century stipulated that it would only seek authority in non-rural local exchange (“LEC”) service areas of South Carolina and that it would not provide any local service to any customer located in a rural incumbent’s service area, unless and until 2nd Century provided written notice of its intent prior to the date of the intended service. 2nd Century also stipulated that it was not asking the Commission to make a finding at this time regarding whether competition is in the public interest for rural areas. 2nd Century agreed to abide by all State and Federal laws and to participate to the extent that it may be required to do so by the Commission in support of universally available telephone service at affordable rates. The SCTC withdrew its opposition to the granting of a statewide Certificate of Public Convenience and Necessity to 2nd Century provided the conditions contained in the Stipulation are met. The Stipulation is approved and attached as Order Exhibit 1.

A hearing was commenced on June 7, 2000, at 12:30 p.m., in the Commission’s Hearing Room. The Honorable Philip T. Bradley, presided. Robert Coble, Esquire, represented the Company. Jocelyn D. Green, Staff Counsel, represented the Commission Staff.

Michael B. Reith, Director, Regulatory and Industry Relations of 2nd Century, appeared and offered testimony in support of the Company’s application. As Director of Regulatory and Industry Services at 2nd Century, Mr. Reith is responsible for state and federal certification and compliance, ILEC interconnection contract negotiations, numbering issues, E911 implementation and policy issues. Mr. Reith was formerly employed with the Florida Public Service Commission, Intermedia Communications, and has thirteen years of regulatory experience. Mr. Reith presented information to the Commission regarding 2nd Century’s

technical, managerial, and financial capabilities to provide facilities-based and resold local exchange telecommunications services in the State of South Carolina.

2nd Century is a Delaware corporation that has received authority from the Secretary of State of South Carolina to operate as a foreign corporation in South Carolina. 2nd Century is a wholly-owned subsidiary of 2nd Century Communications Holdings, Inc., a holding company also incorporated in Delaware. 2nd Century also has one subsidiary that is incorporated in Virginia for the purpose of providing telecommunications services within the State of Virginia.

Upon receiving certification to operate within the State of South Carolina, 2nd Century will provide its South Carolina customers with facilities-based and resold local exchange telecommunications services initially in the exchange of Greenville, South Carolina. More specifically, the Company plans to offer asynchronous transfer mode (“ATM”) – based integrated local and long distance telecommunications services, together with Internet access, to small and medium-sized businesses throughout the United States. When technically feasible, the Company will serve residential customers. Further, the Company plans to deliver integrated voice, data, video and other applications via Data-Based Telephony (“DBT”). 2nd Century does not plan to offer prepaid calling cards in South Carolina. The Company has entered into an interconnection agreement with BellSouth and MCI will operate as the underlying carrier for the Company’s long distance services. Mr. Reith is the regulatory contact person for the Company.

The Company defines itself as the nation’s first e.LEC by offering small and medium-sized businesses advanced computing applications integrated with voice and data communications over a unified network. The Company also launched a premier offering, ESL Pro in January 2000. ESL Pro offers dedicated, high-speed Internet access and local and long

distance services as well as “e-communications” applications including e-mail, Web hosting, a firewall, file sharing, and remote desktop and LAN monitoring.

2nd Century is currently certified to provide local and long distance services in several states including Alabama, Kansas, Minnesota, North Carolina, and Tennessee. The Company first began offering its services in the State of Florida on June 1, 1999; as of the date of the hearing, 2nd Century was providing its services in Florida, Maryland, Georgia, Pennsylvania, Massachusetts, and Texas. The testimony also reveals other technical ability of 2nd Century such as the Company’s billing and customer service department. 2nd Century will perform its own billing services and the Company’s name, toll-free customer service number, and their certification number in the state they are operating will appear on customer’s bills. The Company’s customer service department, which is located in Tampa, Florida, handles service and maintenance issues and billing issues. The record reveals service and maintenance issues can be answered by customer service representatives twenty-four hours a day, seven days a week through the Company’s toll-free number (888-272-8778). Billing inquiries are handled between the hours of 9 a.m. and 5 p.m., Monday through Friday at the Company’s customer service department.

Mr. Reith also discussed the Company’s financial ability to offer telecommunications services in South Carolina. The testimony states, as a start-up company, 2nd Century has no significant financial history, and currently is in the process of making enormous network investments, as well as securing vendors for the equipment and construction of its network. The record reveals the Company’s total current assets as of December 31, 1999, were \$14,674,000 and its total current liabilities were \$5,675,000. The Company also recently received seventy-

five million (\$75,000,000) dollars in financing from Dell, Microsoft, and Intel. Alison Evans is the contact person for financial information on 2nd Century.

The managerial staff of 2nd Century consists of the following persons: John Prisco (President, Chief Executive Officer), Charlotte Baker (Senior Vice President of Marketing and Chief Marketing Officer), John Corsiglia (Chief Operating Officer), Mark Damico (Vice President of Business Operations), Vince Rocca (Chief Technology Officer), Alison Evans (Acting Treasurer), Charles Kallenbach (General Counsel), Robert Callahan (Vice President of Information Technology and Chief Information Officer), Eric Vaughn (Vice President of E-Commerce), Jim Rivette (Vice President of Channel Development) and Joyce Gailey (Vice President, Industry Services Management). According to the record, the President and Chief Executive Officer, has twenty (20) years in the telecommunications industry, and he has an extensive background in electrical engineering, having received a Bachelor of Science from Columbia University and a M.S. from the Massachusetts Institute of Technology, both in electrical engineering. Several other members of the Company's management team have several years of telecommunications experience. For example, the Chief Operating Officer, Mr. Corsiglia, has twenty-seven (27) years of telecommunications experience and the Senior Vice President of Marketing and Chief Marketing Officer, Ms. Charlotte Baker, has seven (7) years of telecommunications experience.

Mr. Reith testified that 2nd Century has never been sanctioned by any state or federal regulatory body regarding its telecommunications services, nor has the Company had authority denied in any state where it has applied for authority or had authority revoked in any state where it has been granted authority. Further, the testimony reveals 2nd Century had not marketed its services in the State of South Carolina prior to receiving certification, nor had the Company

received any revenue from the completion of intrastate calls in South Carolina prior to receiving certification.

After full consideration of the applicable law, the Company's Application, and the evidence presented at the hearing, the Commission hereby issues its findings of fact and conclusions of law:

FINDINGS OF FACT

1. 2nd Century is organized as a corporation under the laws of the State of Delaware and has received a certificate from the South Carolina Secretary of State to transact business within South Carolina as a foreign corporation.
2. 2nd Century wishes to provide local exchange services and interexchange services within the State of South Carolina.
3. The Commission finds that 2nd Century possesses the technical, financial, and managerial resources sufficient to provide the services requested.
4. The Commission finds that 2nd Century's "provision of service will not adversely impact the availability of affordable local exchange service." S.C. Code Ann. §58-9-280(B)(3) (Supp. 1999).
5. The Commission finds that 2nd Century will support universally available telephone service at affordable rates.
6. The Commission finds that 2nd Century will provide services which will meet the service standards of the Commission.
7. The Commission finds that the provision of local exchange service by 2nd Century "does not otherwise adversely impact the public interest." S.C. Code Ann. §58-9-280(B)(5) (Supp. 1999).

CONCLUSIONS OF LAW

1. Based on the above findings of fact, the Commission determines that a Certificate of Public Convenience and Necessity should be granted to 2nd Century to provide competitive resold and facilities-based intrastate local exchange services only to customers located in the non-rural areas of South Carolina. The terms of the Stipulation between 2nd Century and the SCTC are approved, and adopted as a portion of this Order. Any proposal to provide local exchange service to a customer in a rural incumbent LEC's service area is not included in the instant grant of authority. Further, the Company is granted authority to provide facilities-based and resold intrastate interLATA service and to originate and terminate toll traffic within the same LATA, as set forth herein, through the resale of intrastate Wide Area Telecommunications Services (WATS), Message Telecommunications Service (MTS), directory assistance, travel card service or any other services authorized for resale by tariffs of carriers approved by the Commission.

2. With regard to the interexchange service offerings of 2nd Century, the Commission adopts a rate design which includes only maximum rate levels for each tariff charge. A rate structure incorporating maximum rate levels with the flexibility for adjustment below the maximum rate levels has been previously adopted by the Commission. In Re: Application of GTE Sprint Communications Corporation, etc., Order No. 84-622, issued in Docket No. 84-10-C (August 2, 1984).

3. 2nd Century shall not adjust its interexchange rates below the approved maximum level without notice to the Commission and to the public. 2nd Century shall file its proposed rate changes, publish its notice of such changes, and file affidavits of publication with the Commission two weeks prior to the effective date of the changes. However, the public notice

requirement is waived, and therefore not required, for reductions below the maximum cap in instances which do not affect the general body of subscribers or do not constitute a general rate reduction. In Re: Application of GTE Sprint Communications, etc., Order No. 93-638, issued in Docket No. 84-10-C (July 6, 1993). Any proposed increase in the maximum rate level for interexchange services reflected in the tariff which would be applicable to the general body of the Company's subscribers shall constitute a general ratemaking proceeding and will be treated in accordance with the notice and hearing provisions of S.C. Code Ann. §58-9-540 (Supp. 1999).

4. If it has not already done so by the date of issuance of this Order, 2nd Century shall file its revised local and long distance tariffs and an accompanying price list within thirty (30) days of receipt of this Order. The revised tariff shall be consistent with the findings of this Order and shall be consistent with the Commission's Rules and Regulations.

5. 2nd Century is subject to access charges pursuant to Commission Order No. 86-584 in which the Commission determined that for access purposes resellers should be treated similarly to facilities-based interexchange carriers.

6. With regard to the Company's resale of interexchange service, an end-user should be able to access another interexchange carrier or operator service provider if the end-user so desires.

7. 2nd Century shall resell the services of only those interexchange carriers or LECs authorized to do business in South Carolina by this Commission. If 2nd Century changes underlying carriers, it shall notify the Commission in writing.

8. With regard to the origination and termination of toll calls within the same LATA, 2nd Century shall comply with the terms of Order No. 93-462, Order Approving Stipulation and Agreement, in Docket Nos. 92-182-C, 92-183-C, and 92-200-C (June 3, 1993), with the

exception of the 10-XXX intraLATA dialing requirement, which has been rendered obsolete by the toll dialing parity rules established by the Federal Communications Commission, pursuant to the Telecommunications Act of 1996 (See, 47 CFR 51.209).

9. 2nd Century shall file annual surveillance reports on a calendar or fiscal year basis with the Commission as required by Order No. 88-178 in Docket No. 87-483-C. The proper form for these reports is indicated on Attachment A. This Attachment has a total of two pages and is entitled “Annual Information on South Carolina Operations For Interexchange Companies and AOS”.

10. Title 23, Chapter 47, South Carolina Code of Laws Ann., governs the establishment and implementation of a “Public Safety Communications Center,” which is more commonly known as a “911 system” or “911 service.” Services available through a 911 system include law enforcement, fire, and emergency medical services. In recognition of the necessity of quality 911 services being provided to the citizens of South Carolina, the Commission hereby instructs 2nd Century to contact the appropriate authorities regarding 911 service in the counties and cities where the Company will be operating. Contact with the appropriate 911 service authorities is to be made before beginning telephone service in South Carolina. Accompanying this Order is an information packet from the South Carolina Chapter of the National Emergency Number Association (“SC NENA”) with contact information and sample forms. The Company may also obtain information by contacting the E911 Coordinator at the Office of Information Resources of the South Carolina Budget and Control Board. By this Order and prior to providing services within South Carolina, 2nd Century, shall contact the 911 Coordinator in each county, as well as the 911 Coordinator in each city where the city has its own 911 system, and shall provide information regarding the Company’s operations as required by the 911 system.

11. The Company shall, in compliance with Commission regulations, designate and maintain an authorized utility representative who is prepared to discuss, on a regulatory level, customer relations (complaint) matters, engineering operations, tests and repairs. In addition, the Company shall provide to the Commission in writing the name of the authorized representative to be contacted in connection with general management duties as well as emergencies which occur during non-office hours.

2nd Century shall file the names, addresses and telephone numbers of these representatives with the Commission within thirty (30) days of receipt of this Order. Attachment B shall be utilized for the provision of this information to the Commission. Further, the Company shall promptly notify the Commission in writing if the representatives are replaced.

12. 2nd Century shall conduct its business in compliance with Commission decisions and Orders, both past and future, including but not limited to, any and all Commission decisions which may be rendered in Docket No. 96-018-C regarding local competition.

13. The Company is directed to comply with all Rules and Regulations of the Commission, unless a regulation is specifically waived by the Commission.

14. 2nd Century shall file annual financial information in the form of annual reports and gross receipts reports as required by the Commission. The annual report and the gross receipt report will necessitate the filing of intrastate information. Therefore, 2nd Century shall keep financial records on an intrastate basis for South Carolina to comply with the annual and gross receipts filings. Attachment C shall be utilized by the Company to file annual reports with the Commission. Attachment C is entitled "Annual Report for Competitive Local Exchange Carriers"; this Attachment consists of four pages.

JUNE 30, 2000

PAGE 11

15. 2nd Century is directed to comply with all Rules and Regulations of the Commission, unless a regulation is specifically waived by the Commission.

16. This Order shall remain in full force and effect until further Order of the Commission.

Docket No. 2000-0173-C

Re: Application of 2nd Century Communications, Inc.)
for a Certificate of Public Convenience and)
Necessity to Provide Resold and Facilities-based)
Local Exchange Telecommunications Services and)
Resold Interexchange Telecommunications Services)
in the State of South Carolina)

STIPULATION

The South Carolina Telephone Coalition ("SCTC") (see attachment "A" for list of companies) and 2nd Century Communications, Inc. ("2nd Century") hereby enter into the following stipulations. As a consequence of these stipulations and conditions, SCTC does not oppose 2nd Century's Application. SCTC and 2nd Century stipulate and agree as follows:

1. SCTC does not oppose the granting of a statewide Certificate of Public Convenience and Necessity to 2nd Century, provided the South Carolina Public Service Commission ("Commission") makes the necessary findings to justify granting of such a certificate, and provided the conditions contained within this stipulation are met.

2. 2nd Century stipulates and agrees that any Certificate which may be granted will authorize 2nd Century to provide service only to customers located in non-rural local exchange company ("LEC") service areas of South Carolina, except as provided herein.

3. 2nd Century stipulates that it is not asking the Commission to make a finding at this time regarding whether competition is in the public interest for rural areas.

4. 2nd Century stipulates and agrees that it will not provide any local service, by its own facilities or otherwise, to any customer located in a rural incumbent LEC's service area, unless

and until 2nd Century provides such rural incumbent LEC and the Commission with written notice of its intent to do so at least thirty (30) days prior to the date of the intended service. During such notice period, the rural incumbent LEC will have the opportunity to petition the Commission to exercise all rights afforded it under Federal and State law. Also, 2nd Century acknowledges that the Commission may suspend the intended date for service in rural LEC territory for ninety (90) days while the Commission conducts any proceeding incident to the Petition or upon the Commission's own Motion, provided that the Commission can further suspend the implementation date upon showing of good cause.

5. 2nd Century stipulates and agrees that, if 2nd Century gives notice that it intends to serve a customer located in a rural incumbent LEC's service area, and either (a) the Commission receives a Petition from the rural incumbent LEC to exercise its rights under Federal or State law within such 30-day period, or (b) the Commission institutes a proceeding of its own, then 2nd Century will not provide service to any customer located within the service area in question without prior and further Commission approval.

6. 2nd Century acknowledges that any right which it may have or acquire to serve a rural telephone company service area in South Carolina is subject to the conditions contained herein, and to any future policies, procedures, and guidelines relevant to such proposed service which the Commission may implement, so long as such policies, procedures, and guidelines do not conflict with Federal or State law.

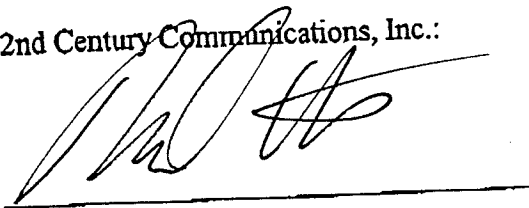

7. The parties stipulate and agree that all rights under Federal and State law are reserved to the rural incumbent LECs and 2nd Century, and this Stipulation in no way suspends or adversely affects such rights, including any exemptions, suspensions, or modifications to which they may be entitled.

8. 2nd Century agrees to abide by all State and Federal laws and to participate, to the extent it may be required to do so by the Commission, in the support of universally available telephone service at affordable rates.

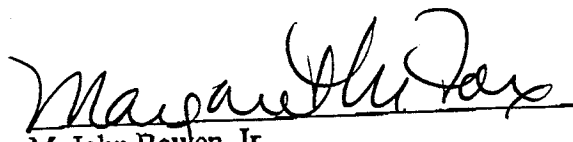

9. 2nd Century hereby amends its application and its prefiled testimony in this docket to the extent necessary to conform with this Stipulation.

AGREED AND STIPULATED to this 14 day of May, 2000.
